## Submitting an Eclipse project

- All assignments and exams must be submitted as an Eclipse project
- You MUST use the following steps after opening Eclipse in your workspace containing the projects
  - Use export wizard
    - File -> Export -> General -> Archive File
  - Select the projects and files to be exported
  - Name the archive file correctly according to the assignment or exam instructions.
    - For example, if Assignment 1 requires that you include your first initial and last name, name it **Assignment 1 URname.zip.**
  - Hit finish, and the file will be saved in the location you chose.
- DO NOT USE Windows Send To Compressed File
- Submit the zip file via blackboard

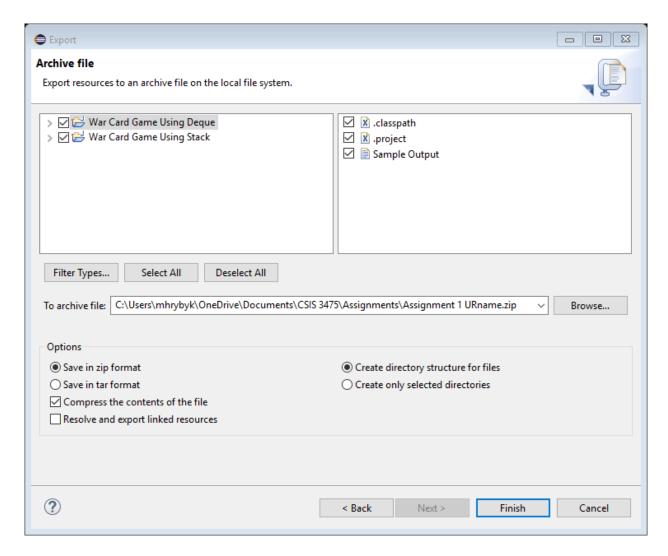

## Select Export

#### Select Archive File wizard

### Select projects, files, and archive name

#### Submit the file

- Make sure the zip file contains files and is NOT empty
- Submit only the zip archive properly named via blackboard
- IMPORTANT: DO NOT USE Windows Send To Compressed File
